## Easy recipe: **Best butter cake**

Simple, yummy, and extremely versatile, this cake could be your new dessert standby.

**MAKES** Two 8-in. cake layers, serving 16

**TIME** 40 minutes, plus 45 minutes to cool

2¼ cups cake flour

2½ tsp. baking  
powder

1 tsp. salt

1¼ cups sugar

About ½ cup unsalted  
butter, at room  
temperature

2 large eggs

2 tsp. vanilla extract

⅔ cup milk

1. Preheat oven to 350°. Sift flour, baking powder, and salt into a medium bowl; set aside. In the bowl of a stand mixer, beat sugar and ½ cup butter until creamy. Crack eggs into a small dish (do not beat) and add vanilla. Add eggs to the butter mixture 1 at a time, scraping down the inside of the bowl as needed. Beat in flour

mixture and milk in alternating batches, starting and ending with the flour and making sure each addition is fully incorporated before adding the next.

2. Butter and flour 2 round 8-in. cake pans. Divide batter evenly between pans.

3. Bake until golden brown and a toothpick inserted in the center of each cake comes out clean, 20 to 25 minutes.

4. Cool cakes 5 minutes. Invert onto a rack, remove pans, and let cool to room temperature, at least 40 minutes.

*Make ahead:* Up to 2 days, wrapped in plastic wrap and chilled.

## Fudge butter cake

**MAKES** One 8-in. cake, serving 16

**TIME** 30 minutes

A classic birthday cake, with a tender crumb and a luscious chocolaty frosting. All you need are the candles.

### Fudge frosting

5 oz. unsweetened chocolate, chopped

8 tbsp. butter, at room temperature

About 3 cups powdered sugar, sifted

6 tbsp. milk

### Cake

**Best Butter Cake** (see recipe, at left)

1. Make frosting: Melt chocolate in the top of a double boiler over simmering water. Let cool to room temperature, 10 minutes. Add butter and beat on high speed with an electric mixer until light and fluffy, about 2 minutes. Add 3 cups powdered sugar and the milk; beat until smooth. Add more powdered sugar if frosting seems too thin.
2. Assemble cake: Dollop 1 tbsp. frosting onto the center of a cake stand (to hold cake in place). Place 1 cake layer on stand. Spread with about  $\frac{3}{4}$  cup frosting. Top with second layer. Starting with the top, then working down the sides, frost cake with remaining frosting.

## Strawberry tallcake

**MAKES** One 8-in. cake, serving 16

**TIME** 35 minutes

We created this elegant, elongated version of strawberry shortcake by stacking cake layers with berries and whipped cream.

### Filling

4 cups quartered strawberries

6 tbsp. sugar, divided

1 tbsp. each finely shredded lemon zest and juice

2 cups heavy cream

### Cake

6 oz. good-quality strawberry jam (9 tbsp.)

**Best Butter Cake** (see recipe, at far left)

1. Make filling: In a large bowl, combine strawberries, 2 tbsp. sugar, the zest, and juice. Let sit 10 minutes.
2. In a medium bowl, whisk cream with remaining 4 tbsp. sugar until it holds a stiff peak.
3. Assemble cake: Using a serrated knife, slice both cake layers in half horizontally. Set rounded tops aside to use as middle layers. Dollop 1 tbsp. whipped cream onto the center of a cake stand (to hold cake in place). Place 1 of remaining layers on stand, cut side up. Spread with about  $\frac{3}{4}$  cup jam. Sprinkle with about one-quarter

of the sweetened strawberries, along with some juice. Then dollop one-quarter of the cream over strawberries. Repeat with second and third cake layers, using the reserved rounded tops.

4. Place the remaining layer on the top of the cake, cut side down. Mound the remaining whipped cream in the center and spread to about 1 in. from the edge, then sprinkle with remaining strawberries.

### Lemon meringue cake

**MAKES** 1 loaf cake, serving 12

**TIME** 2¾ hours

Our butter cake meets classic lemon meringue pie. We used a loaf pan to change the shape of the cake—a simple twist that dramatically alters the presentation.

### Cake

Best Butter Cake (see recipe, on page 100),

prepared through step 1

2 tbsp. finely shredded lemon zest

### Lemon curd

½ cup butter

½ cup fresh lemon juice (about 3 lemons)

¾ cup sugar

8 large egg yolks

### Meringue

1 cup egg whites (about 8 eggs)

1 cup sugar

1. Make cake: Stir zest into finished batter. Butter and flour a 5- by 9-in. loaf pan and pour in batter.

2. Bake 45 minutes, or until a toothpick inserted in the center comes out clean. Cool 5 minutes, then invert cake onto a rack. Remove pan and let cake cool to room temperature, at least 40 minutes.

3. Meanwhile, make lemon curd: In a heavy-bottomed medium saucepan, melt butter with lemon juice over high heat. In a medium bowl, whisk together sugar and yolks. Slowly whisk hot lemon butter into egg mixture, ½ cup at a time. Pour mixture back into saucepan and cook, whisking constantly, until the mixture is very thick, 5 to 8 minutes.

4. Transfer lemon curd to a glass or plastic container. Cover with plastic wrap, pressing it onto the top of the curd to prevent a skin from forming. Chill until cold, at least 1 hour and up to 2 days.

5. Make meringue: Whisk whites and sugar together in a medium metal bowl. Set over a saucepan of simmering water and whisk constantly until mixture is warm to the touch and sugar feels dissolved, about 2 minutes.

6. Scrape whites into the bowl of a stand mixer. Whisk on high speed until light and fluffy and the side of the bowl feels cool to the touch, about 2 minutes.

7. Assemble cake: Preheat broiler, positioning oven rack about 7 in. from the heat source. Using a serrated knife, trim brown exterior from sides and top of cake. Slice cake horizontally into 3 even layers.

8. Place 1 cake layer on a rimmed baking sheet. Spread with half the lemon curd mixture. Repeat with second layer and remaining curd. Top with last layer. Using a spatula, cover the entire cake with the meringue.

9. Broil cake just until top is golden brown, being careful not to burn it, about 1 minute. Using 2 large pancake turners (sliding 1 under each side of cake), transfer cake to a serving plate.
